

People do notice

Good work at the Troy office

I'd like to pass along a few personal thoughts of mine in reference to some people at the Troy office.

As a merchandise manager I've had quite a few occasions to use the toll free numbers for MOPS and Scanner Support and also ARMS. These people have been of great help to me and K mart 4215, Kansas City. Kansas is securing answers to questions and usually solutions to problems we've run up against.

I hope these avenues for verbal communication with Troy are as beneficial for you as I feel they have been for us at 4215.

I've had occasions to speak with Reneva Jackson on scanner, Wilma Williams of MOPS, Faith Riddle, Karen Azarovitz, Janet Sink and some others. Although I've only met them via telephone, I'd like to hope they keep up the good work. — T.E. Lundquist, Merchandise Manager, K mart 4215, Kansas City, Kansas.

"We really like your store"

I really enjoy your store (K mart 4345, Tinley Park, IL.) and I bought a gift for my friend and she liked it. I wish I can work there when I grow up. My mom thinks that you have a really good selection on all the items. We really like your store.

Yours truly,
Jenny Miller

Christmas rope (cont'd.)

double crochet and single crochet in next double crochet. Repeat around wreath to end. Fasten off. Weave different color yarn between double crochets in wreath and tie in bow.

ASSEMBLY

Attach four wreaths evenly along braided rope. Tie a candy cane with a small piece of yarn between each wreath.

NOTE

If you don't crochet, any small Christmas package tin-on may be used in place of the wreaths.

A delicious centerpiece

K mart 7211, Radcliff, Kentucky — Donna Vickers, makes a bread centerpiece to place in the middle of her table as a different holiday decoration.

Items needed: loaf of frozen bread, clear shellac, paint brush, wicker basket, cloth dinner napkin, about 1 1/2 yards of 1" wide ribbon, 2 flowers, baking pan of your choice (a round 9" pyrex dish or regular bread pan may be used. If you want a centerpiece for a basket size 10"x13" round or smaller, use 1/2 loaf of bread).

Follow directions to prepare bread. If you bake it a little darker, it makes a prettier centerpiece, but be careful not to burn it.

Let loaf cool completely after baking. Shellac every crack and crevice of the bread. Let dry and put a second coat on.

When loaf is completely dry, put it in the cloth napkin and place it in the basket. Make a bow on top with the ribbon and carefully stick flowers in each direction of the bow.
